Following is a list of 300 Shoppable Services we have been required to make available by the Centers for Medicare and Medicaid Services. Although this listing provides the average charge for recent patients of Butler County Health Care Center (BCHCC), the charge for each patient will likely be different due to differences in treatment plans and other services provided. The amount that patients will pay out-of-pocket will be different than these charges due to individual health insurance coverage. We are happy to provide personalized out-of-pocket estimates to anyone who requests. Please call 402-367-1200 to request an individualized out-of-pocket estimate for your upcoming procedure or test.

Not all services required to be listed by Medicare are provided at BCHCC. The services required to be listed but not offered are indicated by "no" (Not Offered) in the column labeled "BCHCC Average Charge". It is important to also add that BCHCC does not generally bill for professional services. The charges listed as Technical ("Tech") Charges in the column labeled "Tech/Pro" do not include the professional component which will be billed separately by your physician. BCHCC does bill Professional ("Pro") Charges for anesthesia services, emergency room visits, audiology services, and services with Doctors Inbarasu & Carlston.

⌘ - The professional fees (except anesthesia) for this procedure will be billed separately by the physician except Doctors Inbarasu & Carlston whose fees will be billed by BCHCC but will be in addition to this facility fee.

π - This is Doctors Inbarasu's & Carlston's professional fee to be billed in addition to the facility fee.

ψ - Professional fees from the radiologist will be billed separately.

ρ - If applicable, pathology fees for this procedure will be billed separately from Pathology Medical Services.
